

EZ-Tracks Series 2 Plus

Model Plus 10 -12-14

Now you can experience the quality and features of a true Grouser style track without the price.

The New Series 2 Plus Tracks Feature:

- Long running steel surfaces.
- Wider pads for added floatation.
- True pad and solid link system.
- Easy to install.
- Built to stay on tires under the worst conditions.
- Rebuildable.

Requirements:

- *You require 2 - 3 inches of sidewall clearance to your frame to allow tracks to run free without hitting your frame.*
- *Spacers are available for machines that require additional clearance.*
- *Tracks are easily installed in 15 minutes after initial sizing when new.*
- *If tightened properly with properly inflated tires, our tracks will not come off.*
- *Ships via common carrier truck ground freight.*
- *Weight – 450 - 755 lbs. depending on configuration.*
