

EZ-Spade

Model SPADE-01

Now you can transplant trees easily and inexpensively!

Features:

- *At 42" wide and 44" Deep, this spade is designed to do some serious digging.*
- *Made from 1/2" T1 High Tensile Steel Plate.*
- *The burned on cutting edge can be re-sharpened again and again.*
- *The angle of our cutting edge allows even the lightest machine to dig sharply and deep in a single cut.*
- *Great for nurseries or landscapers.*
- *Move rocks, dig swail ditches and transplant trees all with one attachment.*
- *Transports easily but can move large trees easily. Just dig in three places 120 degrees around the tree and lift out.*
- *Commercially built to last for years of heavy use.*
- *Universal Skid Steer Quick-Tach mounting bracket will fit most Skid Steer models 1994 and newer including Gehl, New Holland, John Deere, Bobcat, Mustang, Case, Thomas & Caterpillar.*
- *Ships via common carrier truck ground freight.*
- *Weight – 325 lbs.*
